Overview 2021

About Us

We are a focused test and measurement instrumentation solution company.

We proud to be an authorized distributor in Indonesia for Yokogawa Test & Measurement Corporation, a wide range of high quality test-meter manufacturer.

Categories product for testing, measuring and analyze such as Oscilloscope, Recorder, ScopeCorder, Digital Power Analyzer, Data Acquisition Equipment, multimeter, for Electric, Electronic, & Mechanical Test and Measurements.

Along with the technical specification of tester and measuring equipment we support our customer to find the suitable requirement.

Experience in identifying customers needs and providing appropriate solutions is important, We believe selling the right piece of test equipment for the job within the constraints of your budget ensures repeat business.

Other advantages of doing business with us include:

No minimum order.

Competitive prices.

Local inventory.

Over 20 years of experiences.

Excellent after sales services

DL850E/DL850EV ScopeCorder

WWW.ADIMINDO.COM

Combines a mixed signal oscilloscope and portable data acquisition recorder into a modular platform designed to capture both high-speed transients and low speed trends.

DL350E ScopeCorder

Combine in one compact Mobile instrument to capture, display, record and analyze the widest variety of electrical and physical parameters in automotive, electronics, energy and mechatronics

Yokogawa's power measurement technology provides best in class precision and stability and best performance
